THE DIRECTOR OF  
CENTRAL INTELLIGENCE

65-483

National Intelligence Council

7 February 1985

NOTE FOR: DDCI

Subject: Telecommunications DCID 1/2

My OGI colleagues inform me that on 30 January the DCID Committee reconsidered the telecommunications requirement, and will be recommending to you that priorities be raised on certain key countries. I support these new priorities. They will help to protect CIA interests re telecommunications and intelligence collection, and will aid CIA analytic efforts in support of US policy interests re international telecommunications conferences, etc.

H. Ford
